

WILD EXTREME

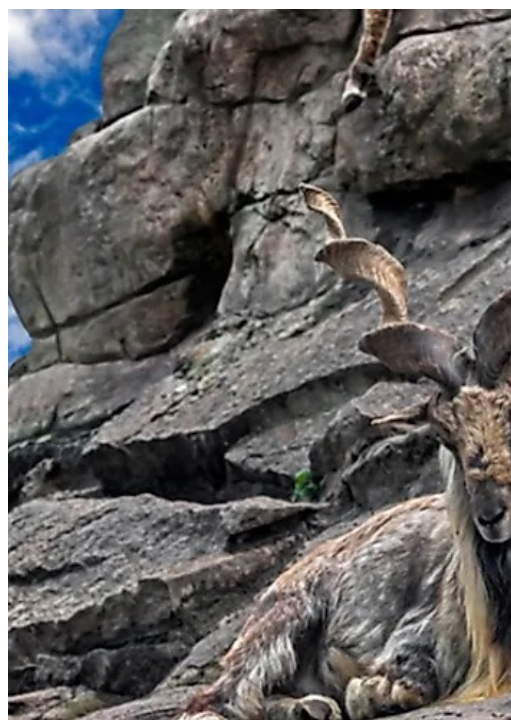

A TV
Docu-series

Get up close to the most impressive animals on Earth and prepare to be amazed

The most Wild Extreme environments on Earth are home to the most resilient life forms. Extremes of heat and cold are the elements these extraordinary creatures have adapted to, and survive in.

8 x 48 min

Deserts. Extreme heat. Lack of plant life. Lack of water. Desert Storms and winds. Mountain Ranges. Extreme Cold. Glaciers. Deep Snow. Powerful freezing winds. The highest and deepest environments. Arctic wastes, Ocean depths, impenetrable Jungle, Urban Jungles.

This is where we will meet the stars of our series. They have adapted to, and flourish in estremi ambienti. Nature can be brutal, it is in these extreme conditions that we find the ingenuity of the natural world.

WILD EXTREME

8 x 48 min

WILD EXTREMES will take us to the extremes of the earth to meet the most amazing creatures who have all developed unique survival techniques to help them deal with and survive in The Extreme.

Detailed facts, analysis, CGI, and maps will guide us as we explore this extraordinary world.

We will get to know and be able to compare and contrast how each of our Extreme Stars has developed and thrived in the Extreme.
